

Discover ideas for creating the future at Fujisawa SST!

As of March 2022, 560 families continue to live in this realistic smart town. The town is being built not from the perspective of technology-driven infrastructure, but from the perspective of the lives of each and every resident. It is full of hints for tomorrow's business.

You will encounter new discoveries such as business tips and research themes.

Know

Is this how towns are created and evolve?

This leading-edge smart town was born in Shonan Fujisawa, a town rich in nature. Since its opening, it has been visited by some 40,000 people and has attracted much attention. Here we introduce the urban development process and development status of Fujisawa SST project.

Feel

Is sustainable living comfortable?

We have high environmental energy goals and the mechanisms to achieve them. Solar panels, energy management, disaster countermeasures, five town services... Expert attendants will explain the "Fujisawa SST lifestyle" in an easy-to-understand manner as you tour the town.

Inspiration

What are the new ideas for tomorrow?

Demonstrations and town meetings. New business ideas are still being born. Fujisawa SST is evolving in a sustainable ways. Please take a look at Fujisawa SST's solutions and approaches.
