

Special Dialogue Programs

Learn About the Past, Present, and Future of Fujisawa SST Through Interactive Discussions

Fujisawa Sustainable Smart Town (Fujisawa SST) marks its 12th year since opening in 2014. Having completed its initial development and establishment phase, Fujisawa SST has transitioned from its initial development phase into a new era of growth.

To share our experience in town management, energy management, and co-creation initiatives, we have expanded our dialogue programs for organizations visiting Fujisawa SST.

These programs offer opportunities to exchange ideas with our experts and management team based on your interests and objectives.

Please note: Participation in the **Fujisawa SST Guided Tour** is required for all sessions.

Leaders Session

This session provides an opportunity to exchange ideas with the President of the local management company and gain insight into Fujisawa SST's 12 years of experience in town management and energy management, including operational know-how, current challenges, and future perspectives

Session Topics

1. Fujisawa SST Project & Town Management

- Town management and operations
- Achievements, current challenges, and future initiatives
- Collaboration and know-how regarding relationships with residents and Fujisawa City
- Co-creation and incubation activities involving industry, government, academia, and citizens

2. Fujisawa SST Project & Town Energy Management (New)

- Energy planning and system development
 - Renewable energy, battery storage, and energy management
 - Disaster resilience and Community Continuity Planning (CCP)
 - Future challenges and the path toward carbon neutrality
-

Co-creation Incubation Session (New)

Available only for organizations based in Japan.

Fujisawa SST promotes innovation through collaboration among industry, government, academia, and local communities.

This session introduces our co-creation projects and demonstration experiments, followed by discussions with our co-creation team about new business opportunities and solutions to social challenges.

Recommended for organizations interested in:

- Co-creation projects at Fujisawa SST
- Demonstration experiments within the town
- Collaboration with Fujisawa SST Consortium members
- Developing new services and businesses

Session Topics

- Case studies of co-creation and pilot projects
 - Solving social challenges through cross-sector collaboration
 - Demonstration testing and service validation
 - Opportunities for new business creation and partnerships
-
